COVER

Cover

INVISIBLE

The Cover is designed to perfectly match our NO-HA mini systems, G500 mini and any kind of door having the thickness indicated. Shapes and colours can be customised by the customer.

Mod.

METAL

Mod.

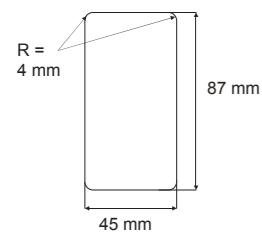

MDF

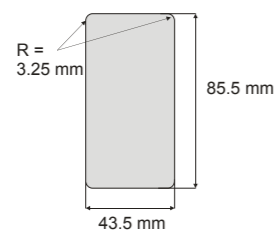

Our metal covers are available in satin stainless steel.

The MDF versions are supplied in a neutral colour ready to paint so that the design of the door matches the finishing of the front plates or door panel used.

+ Colour and shape customisation

Standard Bonaiti shape and colours are described above. Clients are free to customise their own colours and shape with their carpenter.

KNOBS FOR PRIVACY VERSION

FOR B NO-HA MINI PRIVACY LOCK

UNDRILLED

The Cartel doorknob has been specifically developed for NO-HA mini locks to keep the door looking as minimal as possible.

This product is made from materials designed not to interfere in any way with the correct functioning of the magnetic mechanism that controls the locking system.

Mod.

PH 1

FOR G500 MINI WC LOCK AND B NO-HA MINI PRIVACY LOCK

WITH EMERGENCY SCREW

A normal pass-through knob without rosette and with emergency screw can be fitted to the outside of the door and a knob to the inside for the NO-HA mini and G500 mini privacy version.

TOOL

Mod.

SPECIAL TOOL

The 44 mm diameter special tool is the ideal machining tool for drilling out the doors to fit the various B NO-HA mini, Single and Double systems. In a single step, this tool drills out the mortise on the door panel for correct insertion of all the B NO-HA mini systems.
